

## **Greek Influence on English Literature**

### **Learning Objectives**

This course will give students a firm background in Greek literary forms, such as the lyric, epic, tragedy and myth, so essential in understanding some of the greatest works in the English language. Keats' odes, Milton's epic *Paradise Lost*, Shakespeare's tragedies, and Thomas Hardy's novels all have Greek antecedents. Students will begin with a reading of mythology and Greek literature, such as the myths and Homer's *Odyssey* and then read English and American works that borrow from the Greeks. They will also examine how Western art, music, and philosophy were shaped by the content and forms of Greek literature.

### **Grammar, Writing and Public Speaking**

The student will write about the literature or about topics suggested by the literature:

- Five two-page compositions
- Student will write a dramatic presentation on the literature read.
- Student will write his own music, poetry, or prose work based on the Greek literature that he has read.
- Student will write a speech to be delivered at Speech Night at the end of the year.

### **Vocabulary**

- Student will learn words taken from the literature read.
- Student will learn the Greek etymology of many English words.

### **Reading**

Student will read the following works and discuss them in class. Students will be tested on the study guide and lecture material. They will select several of the texts and write critical papers on them. Student will be given reading comprehension exercises designed to practice the student's skill in scanning text for details, making inferences, and discovering the meaning of a word in its context.
