

## Greek Influence

### Assignment 31

- Devote your time this week on your speeches. Be sure to practice in front of family or friends—I would suggest everyday. Strive to have a conversational tone. Remember that speaking too softly or too slowly may be tiresome to listen to and may bore the audience. Put “energy” into your voice by varying its pitch, rhythm, and quality (but above all, be natural!).
- The topic of your essay based on Camus’ philosophic work will be due next week. If you have time, work together with your classmates on as well. The essay, however, will not be due until the last day of class (the last week of May).
