

Classical Greek Assignment 9

- Memorize the quotation below. You will remember that last week we went over these words: *ιατρός*, which means “physician” and *πόνος*, which means “toil” or “suffering.” I went over that obscure word derived from *ιατρός*, *iatrogenic*, which refers to a disease induced by a physician’s examination or treatment. The following Greek sentence may be translated *Time is the physician of suffering (or pain)*. Do you agree with this statement? Did something ever happen in the past that caused you pain that was healed by time? Or does the pain feel as bad or worse? Be ready to discuss this pearl of Greek wisdom!

ὁ χρόνος ἰατρός τῶν πόνων ἐστίν.

- Read chapters 54–60 of **Guerber’s *Story of the Greeks***.
- Last week, we memorized the neuter definite article (the). This week, we will memorize the declension of the word *δοῦλος*, servant or slave:

	Singular	Plural
Nominative	δοῦλος	δοῦλοι
Accusative	δοῦλον	δούλους
Genitive	δούλου	δούλων
Dative	δούλῳ	δούλοις

- Memorize the following new words:

δοῦλος, ὁ,	<i>servant</i>	δῶρον, τό,	<i>gift</i>
μισθός, ὁ,	<i>pay, wages,</i>	πλοῖον, τό,	<i>boat</i>
	<i>reward</i>		
οἶκος, ὁ,	<i>house</i>	ποτήριον, τό,	<i>cup</i>

τῶν πόνων ἐστίν.
