

**Assignment**  
**B is for Bear**

Students will be preparing for speech night by practicing their poem with the introduction this week. There is no other assignment. I will be listening to students recite their poems this coming Friday. Students need to do the following:

- memorize the introduction and poem
- make sure that their words are clearly spoken when reciting
- make sure that they are loud enough for the audience to hear
- work on the proper intonation to communicate the meaning
- practice saying the poem everyday
- practice bowing at the end of their recitation to indicate that they are finished
